SUBJECT: Agreement to Amend UTU 69850 Quarry Operation.

Dear Mr. Simmons:

Per our agreement earlier this year at the San Rafael quarry site, the storage facility area is relocated to a new location. The old location, plus some quarried out area, has been regraded and seeded. At this time we are pleased to report to you that we have reclaimed approximately 5 acres of mined out area, and approximately 21 acres remains un-reliamed. We will continue monitoring reclaimed area, and seed periodically until sufficient growth are established. Please note enclosed aerial photo for the location of new storage area and also as it shows on this photo our total disturbance is approximately 25 acres. We will make all the effort to keep total disturbance below 25 acres, and continue on our reclamation effort during 1996.

Thank you for your continued cooperation and assistance in this regard.

Very truly yours,

Lomar Christensen
